## MOTORIST CREMATED IN WRECKED AUTOMOBILE NEAR RACE COURSE

**Car Consumed After Crashing Into Tree In Mysterious Accident Last Saturday Morning**

Trapped in the car, Joseph S. Perry, street car conductor, aged 26, of 177 Goethe street, San Francisco, was burned to death, early Saturday, when the automobile he was driving burst into flames after it had crashed into a tree north of San Bruno.

Perry's head leaned from the open window at the side of the driver's compartment as the flames burned his body to a cinder and made his car a heap of black scrap iron. The machine was a heavy sedan.

The crash and fire took place at the foot of what is known as "Portuguese Hill," north of Tanforan and three-tenths of a mile south of Orange avenue. Perry's car had crashed into a tree at the west side of the highway and exploded in flames. It stood at right angles to the road.

Police Officer Arthur Brittain of San Bruno was one of the first to arrive at the scene after passing motorists notified him of the fire, but he was unable to approach the wreck because of the intense heat.

Two fire trucks reached the scene, but too late to save the man trapped in the burning car.

Witnesses said the intense heat of the fire burned all clothing from Perry's body and even destroyed his shoes. A few buttons of the Market Street Railway and a watch, shattered and stopped at 1:40, were the only clues to identity.

Police checked the license number of the car and learned that it was registered to Perry. A telephone call to his San Francisco address brought his mother, Mrs. Anna Perry, the lone survivor, to San Bruno where the buttons and watch were identified.

The body was burned beyond all recognition.

The funeral was conducted from a South San Francisco mortuary chapel, Monday morning of this week.

## DEDICATES LIFE TO STUDY CRIME AND CRIMINALS

**Became So Engrossed In Work He Turned House-breaker To Learn Methods**

A man of science, who dedicated his life to the study of crime and criminals and who became so absorbed in the work that it appears he may have set out on a career of crime himself, outlines briefly the story of "The Amazing Dr. Clitterhouse," one of the most baffling mysteries ever brought to the American stage, which opens at the Alcazar Theater in San Francisco next Monday night, February 28.

Dr. Clitterhouse was a member of the Royal College of Physicians in London where his life story was written by Barre Lyndon, eminent English writer and playwright. He had a thriving practice in one of London's fashionable and most conservative districts. He maintained this practice for a while after he started searching for a solution to end crime and cure criminals, but eventually became so engrossed in the work that he devoted his entire time to it. At one point in his career, Mr. Lyndon states, Dr. Clitterhouse was even identified with a band of housebreakers. So intimate was he with the psychology of Scotland Yard operatives, many of whom were his friends, he eluded capture.

"The Sun And I," spectacular pageant of ancient Egypt that has been breaking attendance records for several weeks past at the Alcazar, ends its run Sunday night.

## IS WHEELED INTO THE BIG HOUSE

Anthony Quintal, 36, was sentenced to enter Folsom in a wheelchair this week.

Quintal fell through the roof of an Emeryville winery, which he was seeking to burglarize last August. Both legs were broken.

Recently he was sentenced to life in Folsom as an habitual criminal.

## TAX RETURNS MAY BE FILED IN THESE CITIES

**Twelve Locations In State Where Offices Have Been Established**

The state franchise tax commissioner has announced that offices where state income tax returns may be filed are open in the following cities:

Sacramento, 201 Plaza Building; San Francisco, 111 State Building; Oakland, 1540 San Pablo; San Jose, 114 Victory Building; Fresno, 239 Brix Building; Los Angeles, 105 State Building; Santa Barbara, 23 Howard-Canfield Building; Hollywood, Hollywood Chamber of Commerce Building; Long Beach, 314 Hartwell Building; San Diego, 236 San Diego Trust and Savings Building; San Bernardino, 317 Central Building; Riverside, City Hall.

Although state returns may be filed on or before April 15, 1938, i. e., one month later than in the case of federal returns, taxpayers are urged to file their returns as early as possible in order to avoid congestion and delay later.

Due to substantial changes in the act, a revised set of regulations is being published and will be available for distribution in the near future. Copies may be obtained by writing to the Bureau of Documents, State Capitol, Sacramento. A small charge will be made to cover the cost of printing.

Under the revised regulations, taxpayers who are required to file returns must report the entire amount of their salaries or wages, but may deduct any amount withheld by the employer for unemployment insurance. No deductions may be taken, however, for amounts withheld for federal old age pensions.

## LET US GO TO WORK TO HELP OUR OWN CITY

The manager of the city of Cincinnati originated a plan, recently, to meet the charge, "You can't get people to work."

This municipality of 600,000 is providing employment for every able bodied person. More than 2600 dole recipients registered. It is planned to give preference to the 700 or more persons at present on relief.

The manager believes that there are many tasks to be done that wouldn't be otherwise on account of the lack of funds. For example, there are old buildings to be torn down on several projects. On this work the men will receive an hourly wage. Some of the workers on other jobs will be paid by voucher, exchangeable for food, clothing or anything except the payment of back debts.

Let's go to work in Daly City.

## Serious Offense Is Charged To Motorist

Captured after a chase of more than a mile, Raymond Favour, 664 Ninth avenue, San Francisco, was held in the Daly City jail on charges of drunk driving and hit-run driving involving property damage.

Police Chief James Reardon and Sergeant Arthur Hilton took up the chase when they arrived at Wellington and Irvington streets Tuesday of this week, a few minutes after Favour assertedly fled following a collision between his car and the machine of William Robinson, 598 Crocker avenue.

## POETRY WRITERS BUSY

More than 200 verse writers of Central California will gather in Oakland March 19 for the twelfth annual Poets' Dinner of Oakland.

Awards in a poetry contest will be made at the meeting to be held in the Hotel Oakland.

## GENERAL PERSHING SERIOUSLY ILL

General John J. Pershing, 77, world war commander of the A. E. F., who was recently seriously stricken with a heart ailment in Tucson, Ariz. After suffering two relapses in twelve hours, Lieutenant Colonel S. U. Marrietta, army cardiac specialist, and Dr. Roland Davison stated "Black Jack" was "definitely better" and the condition of his heart "is entirely satisfactory." Photo shows General Pershing in full dress uniform as he attended the recent coronation of King George VI of England.

## FACTS YOU SHOULD KNOW ABOUT YOUR CITY

By Mayor Selmi

The problem of deciding who shall administer your city affairs will again confront you this coming twelfth day of April. It is to your advantage and concern to analyze very carefully the results given you by the present administration.

I am naturally going to tell you of the accomplishments made under my administration; the other side of the story will be told to you by the opposition. It then rests upon you to make your own decision, based upon what you learn about both sides of the story.

Two years ago I was chosen to act as mayor of Daly City by the election of the majority members of the Board of Councilmen. I went into that office with many ideas that I thought could be put into practice immediately. But, as you remember, I was put into the position where I had to discard my ideas and defend myself against a strenuous upheaval brought about by a change of administration. This change encouraged selfish interests and job seekers to stimulate this disturbance with the apparent idea that they would gain for themselves selfish objectives. With the support of Henry Sundermann and Julius Twisten we were able to ward off this attack on our city government and preserved it in its present state of efficiency. At least one year was lost, because of this disturbance, in our program for progress.

Parks and playgrounds, along with better library facilities and a new City Hall, were the important developments uppermost in my mind. I knew that the City Hall, because of its necessity and immediate need, had to be financed by a bond election. With the co-operation of our citizens we hope to find a solution to this problem in the very near future. The library problem is at the present time being taken care of through its own fund levied in the tax rate. Plans for a new and spacious library building have been prepared and bids for construction are now being advertised for.

The acquisition of a playground site in the Crocker Tract section was

## Near Death After Fight

Gordon Lummus, 38, of Brisbane, who, his wife said, was in a fight with a bartender at an automobile camp, Tuesday night of this week, was in a South San Francisco hospital, near death from a possible brain concussion, broken shoulder, possible broken back, and eye and head injuries.

a very important step toward a recreational solution, but by no means adequate for that area. Every effort will be made to enlarge playground facilities for that area and also for the acquisition of a site in the southern end of our city, and this must be done before the available sites are used for the building of homes.

The importance of these improvements is not only because of the possible use you can make of them, but also because they will attract home-seekers to buy and build their homes here. More homes mean increased revenues to expand our civic improvements for the enjoyment of our people.

Continuous development of our present playground holdings will be the policy of the City Council in the event that Selmi, Sundermann and Twisten are re-elected to serve you.

Next week I will tell you how the money will be raised to support playground developments without changing the present tax rate.

## CRASH INJURIES PROVE FATAL TO YOUNG VICTIM

**One Of Four Occupants Of Machine Succumbs In San Francisco Hospital**

Four persons were injured, Wednesday of last week, when their car crashed into a light pole at San Jose and Santa Rosa avenues, San Francisco.

Early Saturday of last week, one of the victims, Julius Cerquettini, South San Francisco youth, aged 20, who was fatally hurt, succumbed to his injuries.

Also injured in the accident were Miss Lena Ricci, 21, Colma, who suffered a skull fracture and internal injuries, and Bernard Schindler, 28, Colma, driver of the car, and Miss Tribby McMahon, 18, Daly City, who were severely cut and bruised.

Cerquettini died late Friday night after having been taken to Saint Mary's Hospital. He came to South San Francisco from Minnesota three months ago. His father, Rusino Cerquettini, Virginia, Minn., police officer, flew to San Francisco by plane a few days ago.

Funeral services were held Monday morning of this week.

## BLOW HORN ONLY WHEN NECESSARY

Very often when a line of stalled automobiles has been formed on a busy street at the approach to an intersection, or in other situations of congested traffic, some driver in the line will start blowing his horn. Others similarly stopped follow his example and the resulting blare is unpleasant to all within hearing distance. What a selfish and senseless practice it is. Perhaps the signal has changed, but the first automobile in line is sometimes compelled to delay his start by a lagging car or pedestrian in the intersection, or by a left-turning, approaching car.

The parking space hunting driver also provokes the hornblowing addict.

Be reasonable. Discourage the nuisance by your good example. To the noisy, thoughtless ones we can only say, don't try to drive the other fellow's car with your horn.—San Mateo County Traffic Safety Commission.

## SEVENTEENTH DISTRICT HONORS FOUNDERS OF PTA

**Forty-one Units From All Parts Of County Represented By Delegates**

Tribute was paid the founders, Mrs. Alice McLellan Birney and Mrs. Pohoebe Apperson Hearst, who laid down the principles by which the National Congress, P. T. A., has been guided throughout the 41 years of its existence.

Mrs. Elmer L. Miller presided during the morning session, when routine affairs were conducted. The nominating committee was elected and those named were Mrs. Charles N. Ledwith, north county; Victoria Roussel, south; Flora Steele, Coast-side; Mrs. F. J. Coad, Burlingame; Martha Phillips, San Mateo; and Mrs.

## CHINESE PLANES BOMB FORMOSA

Many were killed and numerous injuries were reported recently when eight Chinese seaplanes bombed Taihoku, capital of Formosa, and other nearby cities. The raid is the first Chinese attack anywhere in the Japanese Empire. Formosa is located off the Chinese coast about 500 miles south of Shanghai and has been used as an airplane and troop base for Japanese operations in south China. Map shows where the airmen possibly flew across the Formosa Straits to attack the island. Taihoku and Shimchiku (indicated by arrows) suffered heaviest damage. The island was ceded to Japan by the Chinese in 1895 after the Sino-Japanese war of 1894-95.

## AIR OF MYSTERY SURROUNDS TWO SAN BRUNO DEAD

**Prominent County Physician Shot And Killed By Woman Patient Who Committed Suicide**

Mystery still surrounds the motive for the double shooting in San Bruno, Saturday evening of last week, which claimed the lives of Dr. F. Holmes Smith, prominent San Bruno physician, and his attractive 27 year old patient, Mrs. Helen Cornell.

Satisfied that Mrs. Cornell, wife of Elliott C. Cornell, a carpenter, fired the bullet which killed the physician and civic leader in his office and then ended her own life, authorities are still seeking an explanation for her act.

Although she was known to have had occasional spells of melancholia and had threatened to commit suicide, she had never given any indication that she held a grievance against Dr. Smith, so far as could be learned.

The tragedy was discovered about 9:30 o'clock, Saturday evening, when the physician's wife, Mrs. Lola Ann Smith, found Dr. Smith and Mrs. Cornell on the floor of the small consulting room in a bungalow adjoining the home at 475 San Mateo avenue, which he used as his office.

He had gone there three hours before and Mrs. Smith, home two days from Mills Memorial Hospital, where she had been ill with bronchial pneumonia, became worried at his absence. She saw the office lighted and his car standing outside.

Investigating, she found Mrs. Cornell's body on the floor with her head in the doorway. Lying in the opposite direction, his head near a couch, Dr. Smith was moaning in a

## TWO TROOPS OF GIRL SCOUTS ON JOINT HIKE

**Spend Enjoyable Day At Thornton Beach—Take Pictures Of Activities**

With the comradeship of Scout-hood, the Girl Scouts of Troop No. 2, sponsored by the Grace Church of the Nazarene, went on a joint hike to Thornton Beach, Tuesday of this week, with the new group of Girl Scouts being formed under the sponsorship of the Grace Presbyterian Church.

Forty-two girls composed the group, which met at the Nazarene Church, Vista Grande and Santa Barbara avenues, at 9:30 in the morning. Although the weather was not as clear as might have been hoped, it did not hinder any of the girls nor their leaders from having a very enjoyable day at the beach. When the sun made its appearance for a while in the afternoon, motion pictures were taken of the group and their activities.

At four in the afternoon, a tired but happy group of girls started back toward Daly City to disperse to their various homes. Before parting, many of the girls expressed the hope that the two troops of Scouts would again have the opportunity of spending a day together in the near future.

## Chicken Pox In County Abating

The chicken pox epidemic that hit San Mateo County two weeks ago somewhat abated last week, according to a statement made by County Health Officer Dr. Charles C. Gans.

Thirty-six cases were reported among San Mateo County cities two weeks ago, and fifteen were reported last week, according to Gans' report. Of the fifteen cases, seven were reported in Millbrae, four in San Mateo, two in Daly City and one each in Burlingame and South San Francisco.

Redwood City reported three cases of whooping cough and one case each of diphtheria and erysipelas. Belmont reported two cases of non-resident tuberculosis and one of resident tuberculosis. San Mateo and Redwood City rural each reported one case of tuberculosis.

Invitations have been received by the friends of William Segale, 29, of 250 Arlington street and Mary Garquillo, 25, of Brunswick street to their wedding, which will take place Saturday evening, February 26, in Saints Peter and Paul Church on Filbert street, in San Francisco.

## Scouts Assemble In South San Francisco For Court Of Honor

Seventy-five South San Francisco Boy Scouts and a large number of Girl Scouts assembled in the court room of Judge Clay, in the City Hall at South San Francisco, Thursday afternoon of last week, to receive the badges awarded them at the Court of Honor. Judge Clay was the chairman of the Court of Honor and Postmaster Joseph P. Quinlan was vice chairman. Others who participated were Clyde Emerson, District Sea Scout Commissioner; Mrs. W. Cameron, representing Scout mothers; A. Burgess, representing Scout fathers; Scoutmaster Joseph Wilson, master of ceremonies, and Mrs. Clara Tacchi, secretary.

It was thrilling to see the Scouts, under the direction of Scoutmaster Wilson, march into the court room with military precision, salute the flag of our country and repeat in unison their pledge of allegiance. No finer organization exists in this land of ours for the development of our youth than the Boy and Girl Scouts of America.

Scoutmaster Wilson of South San Francisco is undoubtedly one of the best leaders to be found anywhere in Scout work. He is intelligent, experienced and untiring in his work. He handles the boys with the precision of the soldier, and their love and respect for him amounts almost to worship. The mothers and fathers owe him a debt of gratitude, as does the general public, for the great work he is doing.

### Winners Of Essay Contest Felicitated

Monday afternoon of this week Mr. Arthur J. Bodien made a personal visit to Miss Traynor's room in the Jefferson School for the purpose of congratulating Roy Kahle of the low eighth grade on his winning first place in the Abraham Lincoln Essay Contest. Second place was won by Lillybelle Fletcher, low eighth student at Crocker, and Barbara Wilmoth, low eighth of Jefferson, won third place in the contest.

This is the fourth time the coveted first place has been won by Jefferson School and all Jeffersonians are proud of this achievement and the work of Miss Campana, the English teacher.

Mr. Bodien gave a splendid talk to the children of the eighth grade on the character of Lincoln, particularly stressing his high ideals and fine patriotism. Following is a reprint of the winning essay:

**ABRAHAM LINCOLN**  
Abraham Lincoln's life was that of many hardships and adventures. It was because Lincoln was so humbly born that his life inspires us. Americans may be born in humbleness and poverty, but no one can ever remember Lincoln saying that there is no opportunity in America. No man in America has been born with less than Lincoln or with more. People have said that no man to whom his country had given so little has ever given a nation so much.

America was a young nation when Lincoln was born and he loved it devotedly. He was thus so grateful that he gave his services and his life for his country. Lincoln liked the one great gift and shared it upon all.

pool of blood. Authorities said the shooting may have occurred an hour before.

Dr. Smith died at 3 a. m., Sunday morning, in Mills Memorial Hospital without fully regaining consciousness.

He was shot from behind the bullet entering the skull at the right base, passing through his head and lodging near the top of a cabinet at one side of the consulting room.

The woman had shot herself through the temple, just above the left eye. There were powder marks on her forehead.

The death gun, a 38-calibre revolver, was found on the floor under Mrs. Cornell's left hand.

The woman had been undergoing treatment by Dr. Smith for an injury to her elbow, the result of a fall from a horse last July at a Wyoming ranch.

Funeral services for Dr. Smith were held Monday afternoon under auspices of St. Francis Drake Lodge, No. 376, F. & A. M., at the Silvio Nieri Chapel here. Inurnment was in Olivet Memorial Park, Lawndale.

A resident of San Bruno for 30 years, Dr. Smith was prominently connected with the growth of the community and active in civic affairs.

Inspection of records at the doctor's office revealed that the last entry in the Cornell case was made in November, when she was treated for a sore throat.

Although many theories have been advanced and a thorough investigation made by authorities, no definite motive for the tragedy has been arrived at.

That was the gift of freedom. Today we are still enjoying this one great gift of Lincoln's. From the lowest to the highest, America can give no greater gift to mankind.

When Abraham Lincoln saw this country almost wrecked by civil strife it was a period in his life of great sorrow. For he knew no country could prosper without contentment and happiness among the people. Upon his gift he built a country of richness which has persisted to the present time. Lincoln's character is also plainly seen on his face. A homely and kind face, but one that displayed great human understanding. During his life time and since then artists have drawn, poets have written, and songs have been sung for the greatness of Abraham Lincoln's undying faith in the rightness of freedom.

**ANOTHER EXHIBIT**

Process Necessary In Sale  
Of Used Cars

"It is just as important to satisfy a used car buyer," stated the manager of the Mission Auto Co., Chrysler-Plymouth dealer here, "as it is to satisfy the buyer of a new car."

He pointed out that his concern follows a regular reconditioning schedule of operation in the reconditioning of used cars, similar in effect to the factory production schedule maintained in the manufacture of new cars. "In our used car department, every car received by us undergoes a methodical series of reconditioning operations. This procedure begins with a thorough and complete road test at the time the car is received by us to determine the condition of its motor, transmission, clutch, differential, universal joints and other vital units. Following this the motor is analyzed to locate any existing defects in compression, carburetor, battery, ignition and lighting systems."

"After these preliminary tests the car is put through the necessary reconditioning operations, terminating in a final inspection and additional road test, to make certain that the automobile will deliver 100 per cent performance under all conditions."

The manager said that by following this systematic procedure it was possible to exercise a high standard of workmanship and a rigid control over all parts and materials used.

"Our used car policy is simply this. If you satisfy the man who digs down into his pocket to pay all he can afford for a good used car, he will come back again to buy from you. Used car buyers, as well as new car buyers, are looking for transportation that is trouble free, and they deserve to get it."

## Corbett Wins Decision Over Apostoli; Experts Disagree

While sportswriters and ring experts disagreed over the outcome of the recent bout between Young Corbett and Fred Apostoli, Corbett was declared winner at the San Francisco Seals Stadium. Although the battle was close, Corbett came through with a last round rally which netted him the decision. At the end of the fight Corbett's right eye was closed, while his opponent, Apostoli, was considered by some "as fresh as a daisy." Photo shows Corbett's awkward looking but amazingly adequate defense as he guarded his jaw and body from the onrushing Apostoli, shown at right.

## LIVES THERE A man---Here!

Good citizenship implies something more than merely obeying the laws and paying one's taxes.

There is a moral obligation imposed by unwritten code on every resident of a community or political subdivision to contribute some time and energy and effort in active participation in the proper functioning of the government and to promote the progress and improvement of the place in which he lives.

It is a duty for every citizen to assist in the development of his community through active participation in its affairs—social, political and spiritual—to the end that those affairs may be conducted in such a manner as to be conducive to the welfare and happiness of all.

This standard of citizenship is not to be measured by the desire of mere self-aggrandizement around election time. The mere effort to boost oneself into a position of political favor at election time, regardless of proven qualifications, does not measure up to the standard required of a good citizen.

When one displays no active and unselfish interest in the affairs of government of his or her city during the duration of several years residence, it can hardly be expected that the electors will fall for the blandishments of candidacy for office whenever he or she wishes to demand favorable consideration when expressing a desire to warm an official seat.

To be seen or heard of with reference to the governmental affairs of one's community at no other time than when officials are to be elected certainly is, by no stretch of the imagination, a true measure of conduct as a good citizen.

Let all work at all times for the welfare of all—and by that standard shall all men be judged as representative citizens of the community where they reside.

## Competition Keen At Junior College

Twenty-five golfers answered the call of Coaches Ted Mathews and Fred Klyver for spring practice for the San Mateo Junior College last Saturday.

Ten of these men are in competition to determine the first six men for the varsity. Among the best for varsity material are Romero Firpo, South City high school par shooter; Charlie Herbert, from last year's team; Gordon Lunsford, regular on the Modesto jaycee's team last year; and Bud McKeever, wellknown El Camino club star. Others who look promising are Milt Walkup, Jim DeSilva, John Worsley, Harold Stireman, Peter Marich and Charlie Higgins.

There are 15 beginning golfers, who are out to get their first experience at the game under the direction of Coach Fred Klyver.

Many practice tournaments have been planned for the varsity team before they start competition in the Northern California Conference for junior colleges, May 6 to 7, on the Stanford course.

### CLEAN TIRE CHAINS

Tire chains should be cleaned and dried after use before replacing them in their container. If this is not done the chains may not be in good condition when occasion again arises for their use.

A simple way to replace the chain in a bag is to hang one end of the chain on a nail or hook and slip the bag over the chain.

## WASHINGTON NEWS

FROM OUR CONGRESSMAN  
JOHN J. McGRATH

Appropriations—The Senate has a number of appropriation bills piled up waiting for action. In the meantime, the House Appropriations subcommittee is holding hearings on a deficiency bill to carry the request made by President Roosevelt for \$250,000,000 additional funds for the WPA in order that a million men may be put to work. The bill is expected to pass the House, within a very few days and go to the Senate.

Transcontinental Toll Highways—For some time there has been increasing interest in the possibility of transcontinental toll highways. Senator Bulkley has lately introduced a bill providing authorization for the construction of this type of highway. President Roosevelt is interested in the proposition and believes this would be a means of turning the present recession.

New Canal—Those in favor of a stronger national defense policy the urging the construction of a canal across Nicaragua so the country might reduce its navy, as a connection between the Atlantic and Pacific would be assured even if something should happen to close the Panama Canal.

Social Security Amendment—A bill has been introduced proposing an amendment to the Social Security Act to hold pay roll taxes for old age benefits to 1 per cent each on workers and employers until Congress has decided whether or not to make changes in the law.

Feed Loans—Farmers are aided by a new resolution approved by Congress on February 4. Under this resolution it will be possible for farmers who are not able to obtain credit from other sources, to receive crop and feed loans from one of the 550 field offices of the Farm Credit Administration. The loans are not to exceed \$400.

Chain Store Tax—Representative Wright Patman of Texas, author of the Robinson-Patman Anti-Price Discrimination Act, will introduce a bill imposing a tax of \$49,000 a unit on all chain stores in excess of 500, operated by a single concern.

Agricultural Production—Production of agricultural products for sale or for home consumption was larger in 1937 than in any year of government record. Larger than average crops accounted for the unusually large farm output last year. The harvest of fruits, and the production of grain crops for sale or for home consumption was the largest since 1928.

Financing The Small Home—Now a citizen can obtain better terms in financing a small home than ever before, due to the new Federal Housing Administration program. The Federal Housing Administration does not, as many believe, make a direct loan to an individual to build a home. It does, however, make sure the house is built on better terms as it insures mortgage loans. A citizen to obtain an insured mortgage loan for building a small home, should apply to a bank or other lending institution who will investigate the applicant's credit standing. When approved by the bank, the application is then forwarded to the nearest FHA office which will approve or reject it. If the FHA approves the application, the bank will be backed by insurance from this institution, at an interest and carrying charge of 5½ per cent.

Mortgage Agency—At the request of President Roosevelt the Reconstruction Finance Corporation has organized "The National Mortgage Association of Washington" with a paid in capital stock of \$10,000,000 and a paid in surplus of \$1,000,000. This organization completes the machinery for making available immediately the facilities and benefits of the new Federal Housing law, and this Association will invest in first mortgages insured by the Federal Housing Administration and sell its debentures against them.

General Relief—Reports from 29 states show that the number of cases receiving general relief in 90 urban areas increased 13 per cent. Of the 90 urban areas included, 58 are cities of 100,000 or more population. The population of these 90 urban areas is 49 per cent of the urban population and 28 per cent of the total population of the United States. General relief includes all state and local relief extended to the needy except public assistance to the needy aged, blind and children under the Social Security Act, other public assistance of these types, and aid to veterans under state and local statutes.

Corn Exports Greatest In Nine Years—The export movement of corn from the United States during the current marketing year has been the heaviest since 1928-29 and may exceed exports of any years since 1922-23. From the beginning of the marketing year on October 1, 1937,

### INSTALLING CHAINS

Tire chains should be installed snugly, yet not tight enough to cut into the side wall of the tire.

to the week ending February 5, 1938, more than 17,000,000 bushels of corn were exported from the United States. This four months total is almost as much as average annual exports of 21,500,000 bushels for the full marketing year during the period 1925-26 to 1929-30.

## OLD WAR DIARY SEALED IN JAR

Mrs. Gertrude Packard of Tacoma, Wash., does not need any editorial nor any stirring speech to bring back memories of November 11, 1918. For she has the log book of her son Fred, now an employee in the Tacoma Post Office.

Mrs. Packard turns to a certain well worn page and reads, "November 11, 1918. At sea. Fair weather. Still steaming toward Gibraltar and looking out sharp for submarines. Sea routine carried out. At 11:30 a. m. received word that all hostilities had ceased. Much cheering by the crew."

Fred Packard was then on the transport ship Paducah. About two months after he made the entry in his logbook, that is on January 15, 1919, he left the Paducah. For some reason, probably in the rush to pack his belongings before being transferred to the U. S. S. Freedom (a former German cattle ship which was used as a transport) he left his leather bound diary on the ship. So far as he was concerned, its history ended at that time. Shortly after, the Paducah was sunk near Portsmouth. Then a gap until December 21, 1926. On that date Mrs. Packard received a letter from William McCauley, then connected with the engineering department of the city of Minneapolis. Mr. McCauley explained that he was in charge of breaking up the Paducah after it was hauled from the sea. Sealed in a glass battery jar, he said, was her son's diary. He had written to the government to find the address of Mr. Packard's relatives, but had received no reply. Would Mrs. Packard like the book?

She informed Mr. McCauley that she would and added that her son was not a casualty. A month later, another letter from Mr. McCauley arrived, and with it the diary.

"It tells me nearly all I know about my son's life during the war," Mrs. Packard says. "The boys who came back, you know—they don't say much. They don't like to talk about the war."

## WE WANT BRICKS

A huge quantity of bricks was sent by request to the little town of Gothenburg in Nebraska by the WPA. There were 235,000 of them, all manufactured by relief labor.

It was discovered there was no public need to use this material, so now the town wants to construct a municipal building with WPA help and use the WPA bricks.

This little city is one step ahead of Daly City, for it has the bricks.

# BIOLOGY CLASSES ON FISHING TRIP

The members of the biology classes of the Jefferson Union High School, accompanied by Mr. and Mrs. R. L. Gray, Miss Martha Springer, Miss Peterson and others, enjoyed a boat ride to the Farrallone Islands on George Washington's Birthday.

A group of 38 persons put off from Peterson's Water Taxi pier at 6 o'clock and spent the day cruising and fishing. To be sea sick was the fashion of the hour.

The best catch of the day was made by James Fox, who hauled aboard a five foot shark, which, after being examined by those interested, was thrown back into the sea.

The party returned to the San Francisco pier about 4:30 o'clock, tired and happy to be on land again.

## SOY BEAN

Soy Bean, be it known, is a model "T" Ford of the vintage of '23. Not much for looks, 'tis true, but it does go places and comes back again. Many boys and girls seem to have a kindly, almost affectionate, interest in this pile of metal. At its christening last summer, more than half a hundred youngsters were on hand to see a certain Miss do the honor of smashing a bottle of—soy bean milk—on its prow! As will be remembered by those present, the bottle didn't smash readily. In fact, after many tries and help from willing smashers, it was finally poured on while the movie camera recorded the historic event, and a youthful speechmaker, Glenn Goode, eulogized the occasion.

By right of conquest, or something or other, the boys of Scout Troop 141 seem to have first claim on this vehicle. This little ditty often sung by the boys may shed some light on the situation:

We are so keen for Soy Bean, and here's the reason why:  
She takes our blankets and our grub;  
She takes 'em on the fly!  
She takes our dishes, extra clothes,  
Our spoons and knives and forks;  
She takes us, too, a score or more,  
Our flags, canteens and corks.  
Some squeeze inside, some perch on top,  
The running boards are stacked;  
The radiator has its share, the pneumonia seat is packed!  
She grunts, she groans, she rambles on—  
She takes us inawhirl.  
We call her "she" because that she was christened by a girl!

# SUDDEN DEATH OF DALY CITY WOMAN

Friends and relatives of Mrs. Katherine Nocton of Irvington street were shocked to hear of her sudden death, Friday morning of last week.

Mrs. Nocton, apparently in good health, went to her place of employment, the Banks Utility Corporation at First and Folsom streets, where she was employed as a leather worker, on Friday morning of last week. Soon after beginning work she was stricken with a fainting spell and was removed to the Harbor Emergency Hospital, but was dead on arrival there.

She is survived by her son, Charles H. Gleisner; a sister, Mrs. Agnes Denning, and a brother, Harry Canning.

Mrs. Nocton was a member of Court St. Mary No. 1155, Catholic Daughters of America, and the Legion of Mary's Perpetual Help Church.

Officers and members of Court St. Mary and Father J. Smith assembled Sunday evening and recited the rosary.

Funeral services were conducted from a San Francisco mortuary establishment, Monday morning of this week at 9 o'clock, thence to Our Lady of Perpetual Help Church, where, at 9:30 o'clock, a requiem high mass was celebrated for the repose of her soul.

Interment was in Holy Cross Cemetery.

## TROOP NO. 141 and CUB PACK NO. 141

Meets Thursdays 7 to 9 p. m. at Nazarene Church, Vista and Santa Barbara

(Scout Angelo Ditty, Troop Rep.)

Our last regular meeting was called at 5 p. m. instead of at 7, as usual, on account of the revival meetings now in progress at the church. We met and partook of a lunch which we brought except for hot solamagoozelem which was provided at five cents for all you could hold.

Following the meal, Rev. Potter, the evangelist, talked to us on the value of beginning to live the Christian life while young. It was very interesting and well received by all present.

The Scoutmaster, Mr. John R. Young, outlined a schedule of work to be accomplished relative to the coming Festival of Youth, and all Scouts promised to do their best to back up the troop and have it do its share in the event.

## Washington Birthday Hike

Our usual Washington's Birthday hike was quite a success this year. The following Scouts were present: Glenn Goode, Edward McIntosh, Frank Pate, Richard King, Elden Pzbarowski, Richard Russel, Robert Sutherland, Ernest Anderson and George Adams. Candidate Kenneth Claussen and Lion Cub Wallace Nielsen were also present. Kenneth Claussen became a Scout at the outdoor ceremony held in his honor.

The forenoon was spent mostly in just hiking around and enjoying the out of doors and in preparing lunch which consisted of most everything from sandwiches to chicken and dumplings.

Later in the afternoon we all piled into and onto Soy Bean and went to Thornton Beach. There were two troops of Girl Scouts encamped and having a real good time in the warm sunshine. After having a football game among ourselves we matched a team with our Sister Scouts and played baseball.

## TEST CLUTCH PEDAL

The clutch pedal should be examined occasionally for clearance as a precaution against extensive clutch damage.

If the pedal rests tightly against the floorboard when the clutch is engaged, clutch slippage and rapid wear will occur. Adjustment of the pedal for proper clearance should always be entrusted to a competent mechanic.

# OBSERVATIONS OF GOINGS ON IN NATION CAPITAL

## Thirty-seven Million American Workers Laying Up Dimes And Dollars Against The Day When They Are 65 Is Big Bookkeeping Job

(By Hart Goodrich)

Flashing lights now are checking off the dimes and dollars of 37,000,000 American workers for the time when they must step aside for younger men and women.

A perforated card about the size of the small blotters school children use is guided by electricity into one end of a long machine; at the other end a clerk feeds in a yellow ledger sheet resembling the ordinary bank statement; there is a whir of cogs as a light in the recess of the device flares up to let the operator know that the key number on card and sheet correspond—and one of the 37,000,000 is fitted into his proper niche in the vast old age benefits system under the Social Security Act.

Four times a year the amount of wages a worker receives from any single employer is entered on his wage record sheet. This will be repeated until he reaches the age of 65, when the entries on the sheets will be added to determine the amount of the monthly payments to be made by the government.

It has required approximately fourteen months for the Social Security Board to reach this final step in the integration of the parts that make up the complete pattern of the pension system. The four acre plant at Baltimore houses a veritable forest of machinery to care for the countless millions of cards and forms which have flowed through it even in this short time. Today there are 4600 working in three shifts to care for it.

There are any number of ingenious methods for catching any possible duplications of number to a single worker. It was recognized that in the enrollment of millions of workers mistakes were bound to creep in. Employers would report the

wrong account number, etc. However, similar names will recur frequently in a listing of more than 30,000,000, so a clever name index has been prepared grouping surnames of similar sound together. Employees known as "scouts" and constantly on the alert for the assignment of multiple account numbers.

A permanent record is maintained of account number applications by means of photography. They are shown on 16 mm. films at one-seventeenth of actual size. Five thousand forms can be printed on a 110 foot film roll and can be magnified to 23 times its size on projectors. The films are kept in numerical order and expert "splicers," working with magnifying glasses, cut and patch them whenever insertions are necessary. One set of these films is sent to the Archives Building here in Washington and another is retained in Baltimore.

By the first of June the bureau expects to have its wage posting operators up to date. Eventually, it is thought, the bureau may be brought into closer contact with those whom it serves by moving this enormous task of account keeping into each of the twelve sections of the country designated already by the board. Nothing along this line will be attempted before 1939.

## RACING COLD MOTOR

When a motor is raced to warm it up in cold weather serious damage may occur. Chilled oil in the crankcase will not thin out to normal consistency until thoroughly warmed.

If the motor is raced during this warming-up period, all points where friction occurs are subjected to severe treatment through the lack of sufficient lubrication. Even in warm weather it is a bad practice to race the motor.

The Lesson-Sermon will also include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The mission of Jesus confirmed prophecy, and explained the so-called miracles of olden time as natural demonstrations of the divine power, demonstrations which were not understood. ## Hemp Laden Freighter Ablaze At San Francisco Pier

Bursting into flame during the small hours of the morning, the British motorship Silverguava is pictured ablaze at her berth in San Francisco. Forty pieces of fire fighting apparatus were called to battle the spectacular fire, which caused \$10,000 damage. Fifty members of the hemp-laden vessel's crew were rescued from the burning ship. Photo shows the San Francisco fireboat David Scannell (right) cascading water into the burning hold. As water flooded the blazing cargo, the ship listed to the port side, then careened again to a steep angle against the dock as shown in photo. Four firemen were injured bringing the fire under control.

## Notice of Intention to Circulate Petition for Annexation of The Hereinafter Described Territory to The City of Daly City.

We, IDA H. SEVIER and HELEN SEVIER, the undersigned residents and qualified electors of the herein after described territory situate in the County of San Mateo, State of California, hereby give notice that we intend to circulate a petition for the annexation of the hereinafter described territory to the City of Daly City, San Mateo County, California. Said territory is contiguous to the present corporate limits of the City of Daly City and is particularly described as follows:

Beginning at the point of intersection of the Southerly boundary line of Eighty Seventh Street and the Westerly boundary line of Sullivan Avenue, said point being on the Westerly corporate limits line of the City of Daly City, San Mateo County, California; thence Westerly along said Southerly boundary line of Eighty Seventh Street 1510 feet to the Northwesterly corner of Block 11 of the Seventy-five Dollar Lot Homestead; thence at right angles Northwesterly 20 feet; thence continuing Westerly along the Southerly boundary line of Eighty Seventh Street 660 feet to the Easterly boundary line of the S. S. White Tract; thence Northwesterly along the Easterly boundary line of the S. S. White Tract 596.75 feet to

the Southerly boundary line of the property of the Lake Merced Golf and Country Club; thence Easterly along said Southerly boundary line 2305.15 feet to the Westerly corporate limits line of the City of Daly City; thence Southerly along said Westerly corporate limits line 529.35 feet to the Northerly boundary line of Eighty Seventh Street; thence Westerly along said Northerly boundary line and the corporate limits of the City of Daly City 135 feet; thence Southerly along the corporate limits of the City of Daly City 60 feet to the point of beginning.

The following is a statement of the reasons for the proposed petition. The above described territory which is proposed to be annexed to the City of Daly City is situate in unincorporated territory in the County of San Mateo and suffers from a lack of the benefits naturally flowing from a compact and cohesive government. The only police protection presently afforded is that of the deputy sheriff or constable assigned to the First Township, or one man to many square miles. Annexation to Daly City will provide police protection through an adequately staffed and regularly organized municipal police department.

Annexation will likewise provide fire protection through the Daly City fire department, which protection it is believed will be superior to that presently provided.

In addition, the City of Daly City maintains and operates a municipal water distribution system, which system will be a definite advantage to this territory in the event of annexation.

In addition, the City of Daly City maintains a municipally controlled garbage collection and disposal system which operates in conjunction with the municipal water system. Under the Daly City garbage system, garbage to the extent of twenty-five gallons is removed free of charge for each municipal water user.

In addition, annexation will provide more satisfactory general administration of streets under the guidance of the Superintendent of Streets of Daly City.

The seat of general government will in addition be moved closer to the residents of this territory, thus making more convenient the transaction of business with the government. At present, said territory is under the jurisdiction of the Board of Supervisors of San Mateo County, the office of the Clerk of which is in Redwood City, twenty miles away. Annexation will place said territory under the jurisdiction of the City Council of Daly City, the office of the Clerk of which is but a few blocks from said territory.

DATED: February 21, 1938.

IDA H. SEVIER,  
HELEN SEVIER.

Feb. 25—38.

### Prison Meals Served In Hollywood By A Very Noted Caterer

One of the most fashionable caterers in Hollywood was employed to stage a meal in the mess hall of a penitentiary for a motion picture scene. This occurred during the filming of the mess hall riot in "The Last Gangster," coming to the Daly City Theater Sunday, with Edward G. Robinson, Rose Stradner, and James Stewart.

Director Edward Ludwig investigated prison meals in several institutions, and then engaged the caterer to provide an authentic luncheon. The menu included meat, beans, potatoes, fried apples, coffee, milk, bread and butter.

"Contrary to the usual idea," said the director, "men in prison are fed very well nowadays. The old system of poor food has been done away with."

Robinson plays a gangster who serves ten years in prison, emerg-

ing into a new world to find that his wife, in order to protect their child from disgrace, has married another man. In his search for revenge he works out his own regeneration.

Grim details of prison life a mess hall riot, a trip in an armored prison car, and the inner workings of gangland are among the turbulent backgrounds against which the central romance is played.

Miss Stradner, new discovery from Vienna, and Stewart provide the romantic interest and Lionel Stander, Douglas Scott, John Carradine and Sidney Blackmer have prominent roles.

Jane Withers will be seen on the same program in "45 Fathers."
